XL SERIES 150/ 300/ 500

Thermal Binders

Guide to binding

1 Place the document you require binding neatly into the spine of the cover

2 Insert as many covers you require into the machine

3 Simply activate the XL 300 machine. The automatic timer signals that the process is complete

4 Within seconds you have a perfectly bound document

Making a powerful first impression

Because you never get a second chance to make a first impression, GMP has taken the art of in-house publishing to new heights. In a simple, sixty-second operation, you can now add value to virtually any document.

Reports, course notes, sales proposal, price lists, handbooks, marketing literature...the possibilities for a more professional appearance are limitless.

Ideal for high-volume use as well as single copy production, the XL series has been specially designed for simplicity, speed and strength. Within a minute, each page - including inside front and back pages - is perfectly bound in place without the need for pressure, punching and cumbersome comb or slide spines. With a colourful complement of robust plastic covers produced on state-of-the-art Hunkler extrusion technology, you can rest assured that your document is bound to get the attention it deserves!

Covers

- 3 channel binding system
- Pre-scored and folded covers
- Choice of A4 cover colours: white/clear, blue/clear
- Cover sizes from 1.5-30mm spine

Binder

- Low-cost, efficient binding unit
- Safe and easy to operate
- Quick warm-up time and speedy 40 second process
- Batch facility enables several document to bound to be bound at once

Leaders in Lamination Technology
